Symposium	Type	Title	Firstname PA	Lastname PA	Contribution-ID	Day	Room	Time	
Session 01	Talk	Herbivores, restricted hosts, and vanishing habitats - jeopardizing tropical interactive networks	Thomas	Lewinsohn	T01-01	Monday	Audimax	cancelled	
Session 01	Talk	Interactions between seed dispersers and fruiting plants in an East-African rainforest: specialization and dependences	M.	Schleuning	T01-01	Monday	Audimax	14:45	New
Session 01	Talk	Host-parasitoid food webs as tools for understanding tropical diversity	O.T.	Lewis	T01-02	Monday	Audimax	15:00	
Session 01	Talk	Plant-herbivore interactions in a changing world: changes in plant-herbivore networks, demographic consequences and evolutionary potential of diet expansions to exotic gingers by generalist and specialist rolled-leaf beetles	Carlos	Garcia-Robledo	T01-03	Monday	Audimax	15:15	
Session 01	Talk	Ant-fruit interaction networks in fragmented and continuous forests of Southeast Brazil	A.G.D.	Bieber	T01-04	Monday	Audimax	15:30	
Session 01	Talk	Changes over time in mutualistic ant-plant networks and biological mechanisms promoting them	C.	Díaz-Castelazo	T01-05	Monday	Audimax	15:45	
Session 01	Talk	Invasive species interfere with endemic plant-pollinator interactions: lessons from generalised pollination webs on the Seychelles	C. N.	Kaiser-Bunbury	T01-06	Monday	Audimax	16:30	
Session 01	Talk	The devil is in the details: modularity of mutualistic networks	M.A.R.	Mello	T01-07	Monday	Audimax	16:45	
Session 01	Talk	Different patterns of resource partition between plants and animals in pollination networks	S.	Sakai	T01-08	Monday	Audimax	17:00	
Session 01	Talk	Interacion patterns in a tropical semideciduosu pollination networks	Julieta	Genini	T01-09	Monday	Audimax	17:15	
Session 01	Talk	The Restoration of Plant-Flower Visitor Networks in a South Eastern Brazilian Atlantic Forest	S	Bazarian	T01-10	Monday	Audimax	17:30	
Session 02	Talk	Oil-Flowers and their Bees: A global Survey	Stefan	Vogel	T02-01	Tuesday	HS115	09:30	

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 02	Talk	Diversity and evolution of the association of oil-collecting bees with Nierembergia (Solanaceae) and Calceolaria (Calceolariaceae)	A. A.	Cocucci	T02-02	Tuesday	HS115	10:15	New times
Session 02	Talk	Ecology, Biogeography, and Systematics of the Ctenoplectrini, an Old World Oil Bee Tribe, Specialized on the Gourd Family (Cucurbitaceae)	H.	Schaefer	T02-03	Tuesday	HS115	10:30	New times
Session 02	Talk	How oilbees find their flowers: do they use their eyes and/or antennae?	S.	Dötterl	T02-04	Tuesday	HS115	11:15	New times
Session 02	Talk	Pollination networks of oil-flowers: a tiny world within the smallest of all worlds	M.A.R.	Mello	T02-05	Tuesday	HS115	11:30	New times
Session 02	Talk	Nesting biology of the Neotropical oilbees	Isabel	Alves-dos-Santos	T02-06	Tuesday	HS115	11:45	New times
Session 02	Talk	Effect of nectar concentration on foraging behavior in the nextar-feeding bat <i>Glossophaga soricina</i>	Jorge	Ayala-Berdon	T02-07	Tuesday	HS115	12:00	New times
Session 02	Talk	Evolutionary versus Ecological Specialization in the Oil Flower Pollination Syndrome	Simone	Cappellari	T02-08	Tuesday	HS115	12:15	New times
Session 03	Talk	Climate Change Impact on Forest Area in Thailand	Nathsuda	Pumijumnong	T03-01	Monday	HS 116	14:45	
Session 03	Talk	Reconstructing the flow of the Blue Nile River from <i>Juniperus procera</i> tree rings in Ethiopia	T.H.G.	Wils	T03-02	Monday	HS 116	15:00	
Session 03	Talk	THE ROLE OF WOOD MASS DENSITY AND MECHANICAL CONSTRAINTS ON THE ECONOMY OF TREE ARCHITECTURE	N.P.R.	Anten	T03-03	Monday	HS 116	15:15	
Session 03	Talk	How old are trees in central Amazonia?	Jochen	Schöngart	T03-04		HS 116	Cancelled	
Session 03	Talk	Wood density and its radial variation in six canopy tree species differing in shade-tolerance in western Thailand	C.N.	Nock	P03-02	Monday	HS 116	15:30	New
Session 03	Talk	Ecological significance of wood anatomical variation in Kenyan mangroves	N	Schmitz	T03-05	Monday	HS 116	15:45	
Session 03	Talk	Tropical tree rings reveal increased juvenile growth rates over time and preferential survival of fast-growing juveniles	D.M.A.	Rozendaal	T03-06	Monday	HS 116	16:30	

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 03	Talk	Dry Forest versus Mountain Rainforest: A comparison of tree growth and climate variability in Southern Ecuador	F	Volland-Voigt	T03-07	Monday	HS 116	16:45
Session 03	Talk	Long-term and age-related isotope trends in pristine tropical forests	Peter	Hietz	T03-08	Monday	HS 116	17:00
Session 03	Talk	Sexual dimorphism in growth and survivorship patterns of Southeast Asian trees: a 20-year study	S.C.	Thomas	T03-09	Monday	HS 116	17:15
Session 03	Talk	A reassessment of carbon content in tropical trees: The volatile C fraction and its variability among species	A.R.	Martin	T03-10	Monday	HS 116	17:30
Session 04	Talk	Invasive freshwater invertebrates and global change: comparing Latin America and Europe	Karl M.	Wantzen	T04-01	Monday	HS115	11:15
Session 04	Talk	Quantifying the threats to tropical wetlands: a Mauritian case study	S.	Laurance	T04-02	Monday	HS115	11:30
Session 04	Talk	Effects of introduced rainbow trout (<i>Oncorhynchus mykiss</i>) on amphibian assemblages in high mountain forests from Colombia	J.	Urbina	T04-03	Monday	HS115	11:45
Session 04	Talk	Influence of a waterfall over richness and similarity in adjoining pools of an Atlantic Rain Forest stream	C. R.	Jonck	T04-04	Monday	HS115	12:00
Session 04	Talk	TROPHIC STATE OF STREAMS AND RESERVOIRS IN THE MIDDLE VIETNAM (KHANH HOA PROVINCE)	E.S.	Gusev	T04-05	Monday	HS115	12:15
Session 05	Talk	Changing Liana abundance in tropical forests: introduction and overview	S.A.	Schnitzer	T05-01	Monday	HS115	14:45
Session 05	Talk	Changes in liana and tree biomass as a consequence of increased hurricane frequencies in Cozumel, México	D.	Pérez-Salicrup	T05-02	Monday	HS115	15:00
Session 05	Talk	Land-use history and the origins of local liana species composition	E.I.	Garrido-Pérez	T05-03	Monday	HS115	15:15
Session 05	Talk	Density and growth of liana regeneration in secondary and primary forests of Central Amazonia, Brazil	M	Roeder	T05-04	Monday	HS115	15:30
Session 05	Talk	Lianas and free-standing plants during forest succession in northeastern Costa Rica	S.G.	Letcher	T05-05	Monday	HS115	15:45

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 05	Talk	Phylogeny, distribution and abundance of a clade of Neotropical lianas (Bignoniaceae, Bignoniaceae)	Lúcia	Lohmann	T05-06	Monday	HS115	16:30	
Session 05	Talk	The liana community of an eastern Congo basin forest	C.E.N.	Ewango	T05-07	Monday	HS115	16:45	
Session 05	Talk	Lianas of the Upper Amazon: Comparison of climber communities from Los Amigos, Peru and Yasuní, Ecuador	Robyn	Burnham	T05-08	Monday	HS115	17:00	
Session 05	Talk	What determines liana success in Neotropical forests?	Geertje	van der Heijden	T05-09	Monday	HS115	cancelled	
Session 05	Talk	Liana seedling growth strategy and its influences on liana species distribution and abundance	Eric	Manzane	P05-02	Monday	HS115	17:15	New
Session 05	Talk	Liana infestation and its consequences: evidence from African forests	F.	Bongers	T05-10	Monday	HS115	17:30	
Session 06	Talk	Size-dependence of seed dispersal by a scatter-hoarding rodent	Patrick	Jansen	T06-01	Wednesday	HS113	09:30	
Session 06	Talk	Tapirs are effective long distance seed dispersers: a reciprocal transplant experiment in a precipitation gradient in Mexico	G. X.	O'Farrill	T06-02	Wednesday	HS113	09:45	
Session 06	Talk	Bird diversity and seed dispersal of the native tree species <i>Celtis africana</i> along a disturbance gradient in coastal scarp forest in South Africa	E.L.	Neuschulz	T06-03	Wednesday	HS113	10:00	
Session 06	Talk	Seed size selection by a primate seed disperser and potential effects on post-dispersal seed fate	B.K.	Kunz	T06-04	Wednesday	HS113	10:15	
Session 06	Talk	From tamarins to seedlings: seed survival and seedling recruitment in a gradient of forest disturbance	L.	Culot	T06-05	Wednesday	HS113	10:30	
Session 06	Talk	Matrix and edge effects on ecological processes in tropical forest	B.A.	Kaplin	T06-06	Wednesday	HS113	11:15	
Session 06	Talk	Plant – Animal – Interaction <i>Parkia</i> and <i>Saguinus</i> as a model system for seed dispersal	Kathrin	Luettmann	T06-07	Wednesday	HS113	11:30	

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 06	Talk	EFFECT OF HUMAN DISTURBANCE ON SEED AND SEEDLING DISTRIBUTION PATTERNS OF THE ANDEAN OAK (<i>Quercus humboldtii</i> Bonpl.)	S.A.	Guerrero	T06-08	Wednesday	HS113	11:45	
Session 06	Talk	Simulation of seed dispersal by two neotropical tamarin species	R.	Bialozyt	T06-09	Wednesday	HS113	12:00	
Session 06	Talk	Seed dispersal modes of woody species of young secondary forest compared to old-growth fragments in the Atlantic Forest of NE Brazil – where might succession lead to?	T. M.	Kimmel	T06-10	Wednesday	HS113	12:15	
Session 07	Talk	Seasonal microbial community composition in soil aggregate fractions from three land uses of the tropical dry ecosystem in Chamela, Jalisco, Mexico.	M. E.	Gavito	T07-01	Tuesday	HS115	16:15	
Session 07	Talk	Species-rich but distinct arbuscular mycorrhizal communities in reforestation plots on degraded pastures and in neighboring pristine tropical mountain rain forest	I.	Haug	T07-02	Tuesday	HS115	16:30	
Session 07	Talk	Defining biologically meaningful molecular operational taxonomic units	M.	Göker	T07-03	Tuesday	HS115	16:45	
Session 07	Talk	Inocybaceae ectomycorrhizal fungi associated with the endemic <i>Pakaraimaea dipterocarpacea</i> in Guayana, Venezuela: ecological importance and relationship with Africa.	B.	Moyersoen	T07-04	Tuesday	HS115	17:00	
Session 07	Talk	How leaf cutting ants defend their fungus garden against the fungal pathogen <i>Escovopsis</i>	Dieter (D)	Spiteller	T07-05	Tuesday	HS115	17:15	
Session 08	Talk	Silviculture in seasonally dry tropical forests	T.S.	Fredericksen	T08-01	Thursday	Audimax	09:30	
Session 08	Talk	Effect of silvicultural treatments on the structure and dynamics of tropical moist forests - Examples from French Guiana and Central Africa	S	Gourlet-Fleury	T08-02	Thursday	Audimax	09:45	
Session 08	Talk	Influence of climate and soil on the dynamics of tropical lowland forests	Marisol	Toledo	T08-14	Thursday	Audimax	10:00	New order and times

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 08	Talk	Silvicultural treatments in neotropical montane forests- growth reactions and economical evaluation	Sven	Guenter	T08-04	Thursday	Audimax	10:15	New order and times
Session 08	Talk	Functional characteristics determine growth responses of timber species to logging and silvicultural treatments	M	Peña Claros	T08-05	Thursday	Audimax	10:30	New order and times
Session 08	Talk	Can we use of pre-felling inventories for assessing tree diversity at local and regional scales?	J.P.	Arroyo-Mora	T08-08	Thursday	Audimax	11:15	New order and times
Session 08	Talk	A remote sensing approach to assessing forest recovery 15 years after logging: comparing conventional and reduced impact logging	F.J.	Tomlinson	T08-10	Thursday	Audimax	11:30	New order and times
Session 08	Talk	Demography of the Brazil nut tree (<i>Bertholletia excelsa</i>) in central Amazonia: implications for the management of an important NTFP	T.	Haugaasen	T08-13	Thursday	Audimax	11:45	New order and times
Session 08	Talk	Role of immigration in population dynamics of harvested understorey tropical palm populations.	M.	Martinez-Ramos	T08-09	Thursday	Audimax	12:00	New order and times
Session 08	Talk	Demography of rattan species in Vietnam	B	Bui My	T08-11	Thursday	Audimax	12:15	New order and times
Session 08	Talk	Not all fragmented neotropical moist forests melt down at forest-pasture edges: spatial patterns and temporal dynamics of forest structure and functional composition in northern Costa Rica	Bryan	Finegan	T08-12	Thursday	Audimax	16:15	New order and times
Session 08	Talk	Ecological basics for reforestation with native species in the Ecuadorian Andes	M.W.	Weber	T08-03	Thursday	Audimax	16:30	New order and times
Session 08	Talk	Silviculture contributions towards sustainable management of plantation forests in the highlands of Ethiopia.	A.	Nenninger	T08-07	Thursday	Audimax	16:45	New order and times
Session 08	Talk	Do canopy disturbances drive forest plantations into more natural conditions? – A case study from the UNESCO biosphere reserve Can Gio, Vietnam	Juliane	Vogt	T08-15	Thursday	Audimax	17:00	New order and times
Session 08	Talk	Growth-Oriented Logging (GOL): The use of species-specific growth information for forest management in central Amazonian forests	Jochen	Schöngart	T08-06	Thursday	Audimax	cancelled and not yet replaced	

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 09	Talk	Chronic N addition to a tropical lowland forest: leaching losses, soil chemical changes, and tree nutrient status	M. D.	Corre	T09-01	Wednesday	HS114	09:30
Session 09	Talk	Nutrient dynamics along an elevation transect in the Peruvian Andes	Joshua	Fisher	T09-02	Wednesday	HS114	09:45
Session 09	Talk	Response of plant communities to nutrient and water addition at the forest-savanna boundary in central Brazil	E.L.	Geiger	T09-03	Wednesday	HS114	10:00
Session 09	Talk	Rapid effects of nutrient addition on aboveground productivity of Ecuadorian montane forests	J	Homeier	T09-04	Wednesday	HS114	10:15
Session 09	Talk	Leaf litter decomposition in a tropical mountain rain forest as affected by nutrient addition and elevation	D.	Sandmann	T09-05	Wednesday	HS114	10:30
Session 09	Talk	Chronic nitrogen addition causes a quick reduction in soil carbon dioxide efflux from a tropical montane forest but no response from a tropical lowland forest in decadal scale	Birgit	Koehler	T09-06	Wednesday	HS114	11:15
Session 09	Talk	Trace gas fluxes react on elevated nitrogen input in tropical mountain forests of southern Ecuador	G.O.	Martinson	T09-07	Wednesday	HS114	11:30
Session 09	Talk	Is potassium in throughfall an indicator for forest growth?	Hans	Wullaert	T09-08	Wednesday	HS114	11:45
Session 09	Talk	Diversity patterns and aboveground biomass pa	H.	Culmsee	T09-09	Thursday	Foyer	12:00
Session 09	Talk	Atlantic Forest: the most ancient Brazilian forest	C.	JOLY	T09-10	Thursday	Foyer	12:15
Session 10	Talk	Who saves the rainforest?	K	Riede	T10-01	Wednesday	HS116	09:30
Session 10	Talk	Progress and Potentials of Community-based Conservation and Development in South Asia	R.	Seidler	T10-02	Wednesday	HS116	09:45
Session 10	Talk	Rainforest conservation on tribal land: lessons from Papua New Guinea	George	Weiblen	T10-03	Wednesday	HS116	10:00
Session 10	Talk	Saving the Rainforest- strategies and approaches of WWF	J.	Kirchgatter	T10-04	Wednesday	HS116	10:15

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 10	Talk	Those who act upon our territories - Socio-cultural approach to the diversity of human intervention in ecological processes	V.	Von Bremen	T10-05	Wednesday	HS116	10:30	
Session 11	Talk	Bird dispersal and persistence affects plant recruitment in a fragmented east-African biodiversity hotspot	L.	Lens	T11-01	Tuesday	HS114	09:30	
Session 11	Talk	The presence of howler monkeys influences the richness of the seed rain and seedling bank in tropical rain forest fragments	J	BENITEZ-MALVIDO	T11-02	Tuesday	HS114	09:45	
Session 11	Talk	Effects of experimental tree plantations on seed rain and recruitment in Mexican humid and dry tropical forests	C.	Martinez-Garza	T11-03	Tuesday	HS114	10:00	
Session 11	Talk	Seed dispersal syndromes and plant regeneration in highly diversified shaded coffee plantations	E.	Andresen	T11-04	Tuesday	HS114	10:15	
Session 11	Talk	The potential of plantations for bird conservation and natural forest regeneration	N.	Farwig	T11-05	Tuesday	HS114	10:30	
Session 11	Talk	Forest recovery in abandoned tropical pastures: generalists frugivores as ecological rock stars in plant-animal mutualistic networks	T.A.	Carlo	T11-06	Tuesday	HS114	11:15	
Session 11	Talk	What makes Melia azedarach a successful invader? The role of seed dispersal in the invasion process	F.A.	Voigt	T11-07	Tuesday	HS114	11:30	
Session 11	Talk	How is Southeast Asian biodiversity coping in human-dominated landscapes?	Reuben	Clements	T11-08	Tuesday	HS114	11:45	
Session 11	Talk	Biodiversity conservation and carbon sequestration in secondary montane forests, Tanzania	T.H	Mwampamba	T11-09	Tuesday	HS114	12:00	
Session 11	Talk	RAINFOREST RESTORATION AND CARBON SEQUESTRATION IN EASTERN MADAGASCAR: LINKING BIODIVERSITY CONSERVATION, ECOLOGICAL FUNCTIONING AND SUSTAINABLE LIVELIHOODS	R	Dolch	T11-10	Tuesday	HS114	12:15	
Session 12	Talk	The Tropical Station La Gamba/Costa Rica ("Tropenstation La Gamba") – a place for scientific studies in the Neotropics	A.	Weber	T12-01	Thursday	HS115	09:30	New order and times

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 12	Talk	Impact of climate change on the performance of tropical lowland forests in SW Costa Rica	Wolfgang	Wanek	T12-02	Thursday	HS115	09:45	New order and times
Session 12	Talk	The importance of small gallery forest strips for maintaining biodiversity – case studies from a human-dominated landscape in southern Costa Rica	Benjamin	Seaman	T12-03	Thursday	HS115	10:00	
Session 12	Talk	Neotropical Rainforests: Nutrient Export by Rainforest Streams	F.	Schiemer	T12-04	Thursday	HS115	10:15	
Session 12	Talk	Mycelial carton galleries of <i>Azteca brevis</i> (Formicidae) in Southern Costa Rica and the impact of global change	V.E.	Mayer	T12-05	Thursday	HS115	10:30	
Session 13	Talk	How much of the Atlantic Forest is effectively conserved?	A	Diederichsen	T13-01	Tuesday	HS113	09:30	
Session 13	Talk	Uncontrollable hunting, extinctions and the disappearance of unknown mammal species: scenario and perspectives of a hotspot's hotspot (Pernambuco Endemism Centre)	Antonio Rossano	Mendes Pontes	T13-02	Tuesday	HS113	09:45	
Session 13	Talk	Use of wood products for domestic purposes in an Atlantic Forest area, Northeastern Brazil	P.M.	Medeiros	T13-03	Tuesday	HS113	10:00	
Session 13	Talk	Domestic dog (<i>Canis lupus familiaris</i>) invasion in the Atlantic Forest: which factors determine the presence and frequency of occurrence in the remnants?	Karina	Dias Espartosa	T13-04	Tuesday	HS113	cancelled	
Session 13	Talk	The flowering plants of the Brazilian Mata Atlântica: Centers of diversity and narrow endemism and potential threats	C.	Raedig	T13-04	Tuesday	HS113	10:15	new
Session 13	Talk	Species and functional diversity of ants in tropical secondary forests	J.H.	Bihn	T13-05	Tuesday	HS113	10:30	
Session 13	Talk	Variety matters: Immune gene diversity and parasite burden in two marsupial species from the Brazilian Atlantic forest	Y.	Meyer-Lucht	T13-06	Tuesday	HS113	11:15	
Session 13	Talk	Litterfall, litterstock and litter decomposition in the Atlantic Rainforest of Parana State, Brazil	R	Marques	T13-07	Tuesday	HS113	11:30	

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 13	Talk	Fragment size effects on <i>Cecropia</i> species in the seed rain of northeastern Brazilian Atlantic Forest fragments	U.C.	Knörr	T13-08	Tuesday	HS113	11:45
Session 13	Talk	Comparing the use of species and landscape structural measures as indicators of ecological integrity	Jean Paul	Metzger	T13-09	Tuesday	HS113	12:00
Session 13	Talk	The BIOTA/FAPESP Program: a well succeeded Brazilian experience to use scientific data to improve biodiversity conservation and restoration within the Atlantic Forest domain in SE Brazil	C. A.	JOLY	T13-10	Tuesday	HS113	12:15
Session 14	Talk	The use of Traditional ecological knowledge in forest management: an example from India	L	Rist	T14-01	Thursday	HS114	09:30
Session 14	Talk	Ecosystem management and sustainable development in the southwest of Mexico City.	Lucía	Almeida	T14-02	Thursday	HS114	09:45
Session 14	Talk	The value of local biodiversity to communities in Madang Province, Papua New Guinea	D.	Bastyte	T14-03	Thursday	HS114	10:00
Session 14	Talk	Carapa crop and oil production: to be or not to be sustainable and equitable.	PMF	Forget	T14-04	Thursday	HS114	10:15
Session 14	Talk	<i>Dioscorea divaricata</i> Burk. (Dioscoreaceae) as a cultural keystone species of the Magbukún Ayta community of Morong, Bataan, Philippines: implications for biocultural diversity conservation	M.D.C.	Tongco	T14-05	Thursday	HS114	10:30
Session 14	Talk	Social Stratification, Village Institutions, and Deforestation in Central Sulawesi (Indonesia)	S.	Koch	T14-06	Thursday	HS114	11:15
Session 14	Talk	The social-ecological focus in the mexican conservation: case study	ARELI	SANTOS	T14-07	Thursday	HS114	11:30
Session 14	Talk	Impact of harvesting practices and traditional protection actions on the population dynamics of <i>Adansonia digitata</i> L. in West African savanna areas	K.	Schumann	T14-08	Thursday	HS114	11:45
Session 14	Talk	Fire as a common agricultural tool in the tropics favours the growth of tropical bracken, an extremely aggressive weed	K	Roos	T14-09	Thursday	HS114	12:00

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 14	Talk	How do tropical forest people respond to flood and how do they use the forests?	Nining	Liswanti	T14-10	Thursday	HS114	12:15
Session 15	Talk	Origin, diversity and biogeography of the flora of the seasonally dry tropical forest in Mexico: perspectives from a biogeographic node in the Isthmus of Tehuantepec (Oaxaca)	J.A.	Meave	T15-01	Tuesday	HS 116	16:15
Session 15	Talk	Upper Forest Line reconstruction based on modern vegetation structure and composition in the Andes of northern Ecuador	Antoine	Cleef	T15-02	Tuesday	HS 116	16:30
Session 15	Talk	Altitudinal migration of Ecuadorian montane forest during the last 3000 years; is afforestation a correct carbon sink?	H.	Hooghiemstra	T15-03	Tuesday	HS 116	16:45
Session 15	Talk	Vegetation, biodiversity and fire dynamics on the southern Brazilian highland and their implication for conservation and management of modern Araucaria forest and grassland ecosystems	H	Behling	T15-04	Tuesday	HS 116	17:00
Session 15	Talk	Drivers of peat swamp development in the Malay Archipelago: implications for ecosystem stability and carbon sequestration	R	Dommain	T15-05	Tuesday	HS 116	17:15
Session 16	Talk	Hunting impacts on density dependence of recruitment in a Neotropical palm	Patrick	Jansen	T16-01	Tuesday	Audimax	16:15
Session 16	Talk	Frugivore loss and recruitment limitation in tropical trees	K.M.	Holbrook	T16-02	Tuesday	Audimax	16:30
Session 16	Talk	Too many animals and not enough animals in African parks	J.	Terborgh	T16-03	Tuesday	Audimax	16:45
Session 16	Talk	Hunting and seed dispersal in Tropical East Asia	R.T.	Corlett	T16-04	Tuesday	Audimax	17:00
Session 16	Talk	The hunting footprint of Amazonian forests	C.A.	Peres	T16-05	Tuesday	Audimax	17:15
Session 16	Talk	Do large vertebrates generate unique ecological patterns that change when species go extinct?	José Manuel V	Fragoso	T16-06	Tuesday	Audimax	17:30
Session 17	Talk	REDD in the Red: Palm Oil Could Undermine Carbon Payment Schemes	L.P.	Koh	T17-01	Thursday	HS113	16:15
Session 17	Talk	The livelihood impacts of oil palm in Indonesia; missed opportunities for local economic development?	Patrice	Levang	T17-02	Thursday	HS113	16:30

**Gtoe-ATBC accepted talks
by 22 July 2009**

Session 17	Talk	Biofuel expansion, land-use and agrarian change in the Amazon	Pablo	Pacheco	T17-03	Thursday	HS113	16:45
Session 17	Talk	Strengthening RSPO capability to mitigate impacts of palm oil production on biodiversity	Tom	Maddox	T17-04	Thursday	HS113	17:00
Session 17	Talk	Family agriculture and the sustainable standards in palm oil sector	E.	CHEYNS	T17-05	Thursday	HS113	17:15
Session 18	Talk	Alteration of soil labile organic carbon by invasive earthworms (<i>Pontoscolex corethrurus</i>) in tropical rubber plantations	X.	Zou	T18-01	Monday	HS113	15:00
Session 18	Talk	Termite impacts on soil properties and processes: improving soil hydrological function in grazing lands of semi-arid tropical Queensland, Australia.	Tracy	Dawes-Gromadzki	T18-02	Monday	HS113	15:15
Session 18	Talk	Effects of domestic sewage on survival and bioturbation activities of mangrove fiddler crabs and gastropods; with emphasis on their role for ecosystem functioning in wastewater wetlands	G	Penha-Lopes	T18-03	Monday	HS113	15:30
Session 18	Talk	Decomposition processes in Colombian streams: influence of invertebrate shredders, plant compounds, and hydrology	Guillermo	Rueda-Delgado	T18-04	Monday	HS113	15:45
Session 18	Talk	Diversity and functional role of termites in West Africa : case studies in Côte d'Ivoire	S	Konaté	T18-05	Monday	HS113	16:30
Session 18	Talk	The legacy of termites – How ancient termite nests influence today's vegetation in South Africa	N.S.	Kunz	T18-06	Monday	HS113	16:45
Session 18	Talk	Intensified Ecosystem Engineering in a Fragmented Forest: Soil Perturbations by Hyper-Abundant Leaf-Cutting Ants	S.T.	Meyer	T18-07	Monday	HS113	17:00
Session 18	Talk	Nucleated succession by <i>Phoenix pusilla</i> , an ecosystem engineer facilitates dry forest species in the arid Coromandel coast of India	V	Kinhal	T18-08	Monday	HS113	17:15
Session 18	Talk	Does forest fragmentation turn leaf-cutting ants from 'good' to 'bad' ecosystem engineers?	R.	Wirth	T18-09	Monday	HS113	17:30

Session 19	Talk	Biodiversity conservation on a crowded planet: reconciling agriculture with ecology	S.A.	Bhagwat	T19-01	Thursday	HS116	09:30
Session 19	Talk	Biodiversity conservation, yield and economic incentives in cocoa agroforestry intensification in southern Cameroon	H.	Bisseleua	T19-02	Thursday	HS116	09:45
Session 19	Talk	Chocolate and biodiversity: mission possible	Yann	Clough	T19-03	Thursday	HS116	10:00
Session 19	Talk	Tobacco farming and ecosystem impacts	H	Geist	T19-04	Thursday	HS116	10:15
Session 19	Talk	Ecological and social interactions in sustainable agroforestry management: Cocoa in Ghana	M.E.	Isaac	T19-05	Thursday	HS116	10:30
Session 19	Talk	Drivers of intensification in smallholder cacao agroforestry in Central Sulawesi, Indonesia	Jana	Juhrbandt	T19-06	Thursday	HS116	11:15
Session 19	Talk	Yield gap and intensification of tropical grain production	Kathleen	Neumann	T19-07	Thursday	HS116	11:30
Session 19	Talk	Managing trade-offs between agriculture and the environment in West African agro-forestry ecosystems	K	Norris	T19-08	Thursday	HS116	11:45
Session 19	Talk	Conservation at the landscape level: the role of the agricultural matrix	I.	Perfecto	T19-09	Thursday	HS116	12:00
Session 19	Talk	Agricultural intensification and the breakdown of autonomous ecosystem function	John	Vandermeer	T19-10	Thursday	HS116	12:15
Session 19	Talk	An ecosystem service approach to coffee production in a landscape mosaic	Virginie	Boreux	T19-11	Thursday	HS116	16:15
Session 19	Talk	Biodiversity in primary forest and different natural forest land use types in Nabanhe Natural Reserve, China	X.X.	Mo	T19-12	Thursday	HS116	16:30
Session 19	Talk	Profitability of land-use options for smallholders in Southern-Ecuador	Frank	von Walter	T19-13	Thursday	HS116	16:45
Session 19	Talk	Addressing connectivity for multiple species in multiple landscapes allows better predictions of species sensitivity to fragmentation: an example from birds of the Atlantic Forest, Brazil	G.	Pe'er	T19-14	Thursday	HS116	17:00

**Gtoe-ATBC accepted talks

Session 19	Talk	Spider web density in cacao agroforestry in relation to different management strategies on tree, plot and landscape scale	K.	Stenchly	T19-15	Thursday	HS116	17:15
Session 20	Talk	What is beta diversity and what have we learned about it in tropical forests?	H.	Tuomisto	T20-01	Monday	HS114	14:45
Session 20	Talk	Properties of alpha and beta diversity indices in communities organised by dispersal and/or niche assembly rules – a simulation study	O.J.	Hardy	T20-02	Monday	HS114	15:00
Session 20	Talk	The paradox of soil generalist tree species	Julia	Born	T20-03	Monday	HS114	15:15
Session 20	Talk	Conservation and management of the biodiversity in a hotspot characterized by short range endemism and rarity: the challenge of New Caledonia	R.	Pellens	T20-04	Monday	HS114	15:30
Session 20	Talk	Exploring the impact of phylogeny and neutral processes on tropical ant communities	M.	Pfeiffer	T20-05	Monday	HS114	15:45
Session 20	Talk	Can spatial aggregation of tropical forests trees be predicted by species attributes?	M.	Réjou-Méchain	T20-06	Monday	HS114	16:30
Session 20	Talk	Light-dependence of growth rates across a tropical lowland rainforest community	N.	Rüger	T20-07	Monday	HS114	16:45
Session 20	Talk	Bryophytes across the Amazon Basin	Sylvia	Mota de Oliveira	T20-08	Monday	HS114	17:00
Session 20	Talk	Linking tree species spatial distribution and recruitment limitation in a tropical forest	C.X	Garzon Lopez	T20-09	Monday	HS114	17:15
Session 20	Talk	Analyzing phylogenetic relationships among species: a new tool for ecology and biogeography studies.	I.	Parmentier	T20-10	Monday	HS114	17:30
Session 22	Talk	The contribution of drought tolerance, pests, and competition in shaping species distributions along the Malay-Thai Peninsula	Jennifer	Baltzer	T22-01	Tuesday	HS116	09:30
Session 22	Talk	Processes at the forest-savanna boundary in central Brazil	A.C.	Franco	T22-02	Tuesday	HS116	09:45
